

Resources for Faculty and Students

During this time of social distancing and stay-at-home orders during COVID-19, we want to make you aware of new and existing resources offered by LSVT Global that may be immediately helpful to speech, physical and occupational therapy students and faculty.

Informational lectures for students: 3 options, all FREE

1. Live guest lectures exclusive for your students. Engage our LSVT LOUD or LSVT BIG faculty to provide a live lecture to your class. We can use our Zoom or GoToWebinar account or a platform of your choice. These can be intro classes on LSVT LOUD or LSVT BIG treatments or a range of other related topics. These can be part of neuro coursework for PT and OT students and part of neuro, voice or motor speech course work for SLP students.

To learn more about additional expert topics we offer, or to request a guest lecture, please email your request to info@lsvtglobal.com.

2. Live webinars. Students and faculty can join any of our live public webinars. Upcoming dates, times and topics are listed below.

- **Telepractice delivery of LSVT LOUD and LSVT BIG: what you need to know!**
Thursday, April 16th 2:00 PM EDT Register [HERE](#)
- **Cross-linguistic exploration of LSVT LOUD for Parkinson's disease: Is a universal speech treatment approach plausible?**
Tuesday, April 21st 3:00 PM EDT Register [HERE](#)
- **Increasing Amplitude of Small Movements: Improving Fine Motor Skills through LSVT BIG**
Wednesday, April 22nd 2:00 PM EDT Register [HERE](#)
- **The Integral Role of Occupational Therapy in a Parkinson-Specific Rehabilitation Approach: LSVT BIG!**
Monday, April 27th 8:00 PM EDT Register [HERE](#)
- **The Impact and Treatment of Non-Motor Symptoms in LSVT LOUD and LSVT BIG**
Wednesday, May 20th 2:00 PM EDT Register [HERE](#)
- **Application of LSVT LOUD to neurological conditions beyond Parkinson disease**
Wednesday, June 17th 2:00 PM EDT Register [HERE](#)

3. On demand webinars. These free on demand webinars are available on a range of topics. Click [HERE](#) to view all topics and watch a webinar. Example topics include:

- Preparing tomorrow's therapists today! LSVT Training and Certification options for University programs [View NOW](#)
- Evidenced-based Speech Treatment (LSVT LOUD): An Informational Webinar for Speech-Language Pathology Students [View NOW](#)
- Evidence-based Physical and Occupational Therapy Treatment (LSVT BIG): An Informational Webinar for PT and OT Students [View NOW](#)
- Research and Clinical Advances in LSVT LOUD and LSVT BIG [View NOW](#)

Online LSVT Training and Certification available for students and university programs

If you have been considering individual or group online learning for university students, we are here to assist! Discounted rates for student and faculty are available. For information please contact [Angela Halpern, MS CCC-SLP](#) for LSVT LOUD student/university training for SLP students or [Laura Guse, MPT](#) for LSVT BIG student/university training for PT and OT students. You can also read about university online training options [HERE](#).

Need help integrating LSVT LOUD or LSVT BIG into your coursework or clinical training for students??

We can also provide direct consultation with professors who have made LSVT come alive for their students during coursework and clinical experiences that follow. To request a call, email info@lsvtglobal.com.

Read our blog [HERE](#) to learn how UMass faculty, Lisa Sommers, MA, CCC-SLP, facilitates LSVT LOUD training at her university.

***NEW:** We now include weekly live Zoom office hours for all online learners with LSVT LOUD and LSVT BIG faculty. This expands the online learning experience by adding live interaction with LSVT faculty and other online learners.

Student Research Grants

Every year, LSVT Global offers six \$1500 grants to support student treatment research with adult or pediatric neurological conditions. Two grants each will be awarded to [physical therapy](#), [speech-language pathology](#), and [occupational therapy](#) students. Deadlines coming soon!

*New: LSVT LOUD Simucase Intervention Case

If your university is a Simucase subscriber, there is a new LSVT LOUD case available. Help your students learn about LSVT LOUD during the stay-at-home order. www.simucase.com

Judith- LSVT LOUD Intervention

Judith is a 70-year-old female with Parkinson's Disease. You are assigned to complete Judith's intervention session using the LSVT LOUD program. Today's session is Day 2 of Week 2. This simulation is presented in partnership with LSVT Global.

Recommended time for completion is 90 minutes.

Information for people with Parkinson's and families

Explore the new (and existing) resources we have for people with Parkinson's disease and other neuro conditions. Included are new interactive exercises classes (all free) to help during this time of social distancing. Our goal is to provide an opportunity that allows people with PD to keep moving, stay motivated with their LSVT LOUD and LSVT BIG exercises, and most importantly, to connect with each other. Please share this link with anyone who may benefit from these offerings: [Exercise and Educational Resources for people with PD](#)

General information links on our website:

[What is LSVT LOUD?](#)

Learn about the LSVT LOUD, who it can help, and how it differs from other speech therapy programs.

[What is LSVT BIG?](#)

Learn about LSVT BIG, who it helps, and how it differs from other physical/occupational therapies.

[Information for Patients and Families](#)

Discover how communication, movement and function can be improved with LSVT LOUD and LSVT BIG.

[Information for Students & Faculty](#)

Explore LSVT research, educational resources and opportunities for students and faculty.

[Videos](#)

Watch communication and movement improve with LSVT LOUD and LSVT BIG treatments.

[Research](#)

Discover the extensive research underlying LSVT LOUD and LSVT BIG.

LSVT Companion® Clinician and Client Editions:

The LSVT Companion is specifically tailored to the LSVT LOUD protocol. It is a software system with calibrated microphone. The clinician edition automates data collection and provides real time feedback. This saves time and increases efficiency and it can be used with all adult voice clients, not just those with Parkinson's disease. The Client edition leads clients through LSVT LOUD exercises, measures results and provides instant feedback via a virtual coach. This can be used during or after treatment. These systems can be effectively integrated into university clinic settings.

The FDA has cleared the LSVT Companion for Safety, Effectiveness, and Functionality as a medical device. Runs exclusively on Windows based platforms. You can learn more about the LSVT Companion [HERE](#)
