

# 6th Pan American Parkinson's Disease and Movement Disorders Congress

February 13-15, 2026 • Houston, Texas, USA

International Parkinson and  
Movement Disorder Society  
Pan American Section

## 2026 Abstracts: Full List

### Late-Breaking Abstracts

Late-Breaking Abstracts		
LBA 1	Genetics of VPS13A disease (chorea-acanthocytosis) in Puerto Rico	February 13, 2026 13:00 - 14:30 & February 14, 2026 13:30 - 15:00
	Estrogens in women with PSP in Argentina and North America	
LBA 3	impact of moderate intensity aerobic exercise (mAE) on Parkinson's disease resilience and recovery	
LBA 4	Hoc Delayed-Start Analysis	
LBA 5	Analyzing the Effect of Language Barriers on Patient Communication for Recruitment and Retention in Parkinson's Disease Clinical Trials	
LBA 6	Parkinson's disease and associated sleep disturbances	
LBA 7	Navigator (CNN) Program	
LBA 8	synuclein biopsy study	
LBA 9	dual-task gait in Parkinson's Disease	

Publication and Poster Number	Presentation Date	Presentation Time	Abstract Title	Poster Category	Abstract Subcategory
1	Friday, February 13	13:00 - 14:30	PD&Me: Exploring Quality of Life, Access to Care, and Patient Attitudes Toward Technology-Aided Solutions in Canada	AI, Technology, Telemedicine	Artificial Intelligence (AI) and Machine Learning
2	Friday, February 13	13:00 - 14:30	Healthy Control Recordings to Support Development of an Automated Motor Assessment Platform in Parkinson's Disease	AI, Technology, Telemedicine	Artificial Intelligence (AI) and Machine Learning
3	Friday, February 13	13:00 - 14:30	Simulating Age-Dependent Pathways to Well-Being Using fsQCA Synthetic Data: Implications for Parkinson's Disease and Quality of Life	AI, Technology, Telemedicine	Artificial Intelligence (AI) and Machine Learning
4	Friday, February 13	13:00 - 14:30	Efficacy of virtual reality-based physiotherapy in the rehabilitation of patients with Cerebellar ataxia	AI, Technology, Telemedicine	Technology
5	Friday, February 13	13:00 - 14:30	Real-world Validation of the Electrode Identifier for Electrophysiology-guided DBS Programming	AI, Technology, Telemedicine	Technology
6	Friday, February 13	13:00 - 14:30	Development of a Patient-Centric Botulinum Toxin Response Scale (BTRS) Through Qualitative Analysis	AI, Technology, Telemedicine	Technology
7	Friday, February 13	13:00 - 14:30	AI-Integrated Exoskeletons in Neurorehabilitation: A Paradigm Shift in Motor Recovery for Parkinson's Disease, Multiple Sclerosis, and Paraplegia	AI, Technology, Telemedicine	Technology
8	Friday, February 13	13:00 - 14:30	Spatiotemporal Gait Impairments and Clinical Correlates in Hereditary Spastic Paraplegias: First Data Analysis from the iAXON-Brazil Network	AI, Technology, Telemedicine	Technology
10	Friday, February 13	13:00 - 14:30	The Alignment of Patient and Clinician-Rated Speech and Cognition in De Novo Parkinson's Disease: A PPMI Study	Allied Healthcare, Quality of Life, Palliative Care, Patient Perspectives	Allied Healthcare: Physical Therapy, Speech Therapy, Rehabilitation
11	Friday, February 13	13:00 - 14:30	Fatigue and Physical Activity in Parkinson's Disease: Insights by Disease Severity	Allied Healthcare, Quality of Life, Palliative Care, Patient Perspectives	Allied Healthcare: Physical Therapy, Speech Therapy, Rehabilitation
12	Friday, February 13	13:00 - 14:30	A Quality Analysis of Online Facebook Videos as an Information Source for the Application of High Intensity Focused Ultrasound in Essential Tremor: Media-Based Cross-Sectional Study	Allied Healthcare, Quality of Life, Palliative Care, Patient Perspectives	Patient Perspectives
15	Friday, February 13	13:00 - 14:30	Chorea, Levodopa Induced Dyskinesia and Tic-Like Behaviours in Corticobasal Syndrome: A Case Series and Literature Review	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
16	Friday, February 13	13:00 - 14:30	Orthostatic Myoclonus Associated with Parkinsonism and Possible Multiple System Atrophy: A Case Report	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
17	Friday, February 13	13:00 - 14:30	Multiple System Atrophy Type P in a Patient with a Pathogenic ABCA7 Variant	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
18	Friday, February 13	13:00 - 14:30	Downward Gaze Limitation and Eyelid Opening Apraxia as Unusual Oculomotor Manifestations in Multiple System Atrophy: A Case Report	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
19	Friday, February 13	13:00 - 14:30	Description possible enviromental exposure in AMS Latin American Population	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Etiology
20	Friday, February 13	13:00 - 14:30	Hot cross bun sign in non-MSA conditions: Two cases report	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Neuroimaging
21	Friday, February 13	13:00 - 14:30	Young Onset Rapidly Progressive MSA with Co-occurrence of Alpha Synuclein and Beta Amyloid on Post-Mortem Pathology	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Other
22	Friday, February 13	13:00 - 14:30	Diagnostic Gaps in Atypical Parkinsonism in Latin America: Results from a Regional Survey of Physicians Involved in Patient Care	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Other
23	Friday, February 13	13:00 - 14:30	Validating Capsule-Based Training for Atypical Parkinsonism with AI in Latin America: Insights from the LARGE-PD Consortium	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Other
24	Friday, February 13	13:00 - 14:30	Post-Apneic Blunting of Chronotropic Response During Nocturnal Sleep in MSA: Diagnostic value and therapeutic intervention	Atypical and Other Parkinsonisms	MSA, PSP, CBS: Other
25	Friday, February 13	13:00 - 14:30	A Sacred Prelude to Aphasia: Demystifying a Diagnostic Trinity	Atypical and Other Parkinsonisms	Parkinsonism: Other
26	Friday, February 13	13:00 - 14:30	BILATERAL BASAL GANGLIA CALCIFICATIONS IN A TERTIARY CENTER	Atypical and Other Parkinsonisms	Parkinsonism: Other
27	Friday, February 13	13:00 - 14:30	Semantic Variant Primary Progressive Aphasia Associated with an SNCA Variant: Challenging the boundaries between FTD and Synucleinopathies	Atypical and Other Parkinsonisms	Parkinsonism: Other
28	Friday, February 13	13:00 - 14:30	Leveraging markerless video-based gait analysis to diagnose NPH.	Atypical and Other Parkinsonisms	Parkinsonism: Other
29	Friday, February 13	13:00 - 14:30	Behavioral and Cognitive Onset in Juvenile Huntington's Disease: A Case Report	Atypical and Other Parkinsonisms	Parkinsonism: Other
30	Friday, February 13	13:00 - 14:30	Atypical Parkinsonism Revealing Cerebral Cryptococcosis in an Immunocompetent Host	Atypical and Other Parkinsonisms	Parkinsonism: Other
31	Friday, February 13	13:00 - 14:30	When the Tap Test Underwhelms: Revisiting Prognosis in NPH	Atypical and Other Parkinsonisms	Parkinsonism: Other

32	Friday, February 13	13:00 - 14:30	Delayed Onset Parkinsonism Following BCMA-Directed CAR-T Therapy	Atypical and Other Parkinsonisms	Parkinsonism: Other
33	Friday, February 13	13:00 - 14:30	Teaching the Eyes to See: A Structured Routine for Eye Movement Examination in Parkinsonian Disorders	Atypical and Other Parkinsonisms	Parkinsonism: Other
34	Friday, February 13	13:00 - 14:30	When Parkinson's is not Parkinson's	Atypical and Other Parkinsonisms	Parkinsonism: Other
35	Friday, February 13	13:00 - 14:30	Long-standing idiopathic Fahr's disease: Case report.	Atypical and Other Parkinsonisms	Parkinsonism: Other
36	Friday, February 13	13:00 - 14:30	Parkinsonism Associated with Klinefelter Syndrome: An Uncommon Association	Atypical and Other Parkinsonisms	Parkinsonism: Other
37	Friday, February 13	13:00 - 14:30	Modeling Laryngeal Dystonia through Spectral Analyses of Vocalizations in a Dystonia Mouse Model	Dystonia	Dystonia: Disease Mechanisms / Neuroimaging / Neurophysiology
38	Friday, February 13	13:00 - 14:30	SGCE-Related Myoclonus-Dystonia (DYT11) Initially Misdiagnosed as Tic Disorder: The Diagnostic Value of Familial and Phenomenological Assessment	Dystonia	Dystonia: Epidemiology, phenomenology, clinical assessment, rating scales
39	Friday, February 13	13:00 - 14:30	Etiological investigation of an atypical presentation of generalized dystonia	Dystonia	Dystonia: Genetics
40	Friday, February 13	13:00 - 14:30	Malignant Tardive Dystonia Improving with Deep Brain Stimulation	Dystonia	Dystonia: Medical Therapy / Surgical Therapy
41	Friday, February 13	13:00 - 14:30	Favorable Pregnancy Course After GPI-DBS in Idiopathic Generalized Dystonia: Case Report	Dystonia	Dystonia: Medical Therapy / Surgical Therapy
42	Friday, February 13	13:00 - 14:30	Clinical Reasoning Over Genetics: GPI-DBS Restoring Independence in Severe Tardive Syndrome	Dystonia	Dystonia: Medical Therapy / Surgical Therapy
43	Friday, February 13	13:00 - 14:30	Dual-Action Therapy for Dystonia: A Chilean Perspective on Zolpidem and Botulinum Toxin	Dystonia	Dystonia: Medical Therapy / Surgical Therapy
44	Friday, February 13	13:00 - 14:30	DEEP BRAIN STIMULATION FOR DYSTONIA: GLOBUS PALLIDUS VS. SUBTHALAMIC NUCLEUS, BETTER RESPONSE AND EASIER TO PROGRAM IN THE SUBTHALAMIC NUCLEUS	Dystonia	Dystonia: Medical Therapy / Surgical Therapy
45	Friday, February 13	13:00 - 14:30	Meige Syndrome and Pseudoathetosis in a Patient with Sequelae of Leprosy: A Case Report	Dystonia	Dystonia: Other
46	Friday, February 13	13:00 - 14:30	Diagnostic Latency of Parkinson's Disease Among Chinese Immigrants in New York City: A Retrospective Chart Review Study	Education, History, Disparities, Other Topics	Disparities
47	Friday, February 13	13:00 - 14:30	Improving Recruitment of Underrepresented Groups in the PD GENERation Study	Education, History, Disparities, Other Topics	Disparities
48	Friday, February 13	13:00 - 14:30	Environmental Risk Factors for Lewy Body Dementia: A Pilot Study for Sex-Specific Risk	Education, History, Disparities, Other Topics	Disparities
49	Friday, February 13	13:00 - 14:30	Subacute Cerebellar Ataxia with Elevated ACE: A Neurosarcoidosis Case	Education, History, Disparities, Other Topics	Disparities
50	Friday, February 13	13:00 - 14:30	Impact of a Genetic Counseling Workshop on Specialists' Confidence in Returning Parkinson's Disease Genetic Results	Education, History, Disparities, Other Topics	Education in Movement Disorders
51	Friday, February 13	13:00 - 14:30	Brain Health Ambassadors Program: A Pilot Initiative to Improve Multigenerational Brain Health Literacy through Youth Programming	Education, History, Disparities, Other Topics	Education in Movement Disorders
52	Friday, February 13	13:00 - 14:30	Tarantism Revisited: Cultural Phenomenon, Functional Disorder, and Social Contagion	Education, History, Disparities, Other Topics	History of Movement Disorders
53	Friday, February 13	13:00 - 14:30	Nocturnal Focal Motor Seizures with Preserved Consciousness Arising from Stage II Sleep: A Case Report and EEG Correlation	Education, History, Disparities, Other Topics	Other
54	Friday, February 13	13:00 - 14:30	Early outcomes and safety of MR-guided focused ultrasound VIM thalamotomy for tremor control: first Brazilian clinical experience	Education, History, Disparities, Other Topics	Other
55	Friday, February 13	13:00 - 14:30	Subacute-onset progressive supranuclear palsy-like syndrome with positive anti-glycine antibodies	Functional, Drug-Induced, Autoimmune Movement Disorders	Autoimmune Movement Disorders
56	Friday, February 13	13:00 - 14:30	Transition From Stiff-Person Syndrome to Isolated Cerebellar Ataxia in GAD65 Autoimmunity: Rationale for IVIG Retreatment in a Transitional Phenotype	Functional, Drug-Induced, Autoimmune Movement Disorders	Autoimmune Movement Disorders
57	Friday, February 13	13:00 - 14:30	Caught Off Balance: Anti-GAD65 antibodies at the Center of a Cerebellar Mystery	Functional, Drug-Induced, Autoimmune Movement Disorders	Autoimmune Movement Disorders
58	Friday, February 13	13:00 - 14:30	Paraneoplastic Cerebellar Ataxia in a 60-Year-Old Woman with Metastatic Breast Cancer: A Case Report	Functional, Drug-Induced, Autoimmune Movement Disorders	Autoimmune Movement Disorders
60	Friday, February 13	13:00 - 14:30	Tremor-Predominant Tardive Syndrome With Lingual Stereotypy: Long-Term Response to Deutetrabenazine	Functional, Drug-Induced, Autoimmune Movement Disorders	Drug-Induced Movement Disorders
61	Friday, February 13	13:00 - 14:30	When Healing Turns Harmful: Ayahuasca-triggered Functional Movement Disorder	Functional, Drug-Induced, Autoimmune Movement Disorders	Functional Movement Disorders / Psychogenic Movement Disorders

62	Friday, February 13	13:00 - 14:30	Identification enables treatment: Positive-Sign Diagnosis and Correct ICD-10 Coding for Functional Neurological Disorders at a Peruvian Tertiary Hospital	Functional, Drug-Induced, Autoimmune Movement Disorders	Functional Movement Disorders / Psychogenic Movement Disorders
63	Friday, February 13	13:00 - 14:30	Functional Movement Disorders (FMD) Misdiagnosis: A Systematic Review	Functional, Drug-Induced, Autoimmune Movement Disorders	Functional Movement Disorders / Psychogenic Movement Disorders
64	Friday, February 13	13:00 - 14:30	Fronto-cerebellar Circuit Underlying Impulsivity and Compulsivity: A Lesion Network Mapping Study	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
65	Friday, February 13	13:00 - 14:30	Familial Case of Spinocerebellar Ataxia Type 10 (SCA10) with Epileptic Seizures and Progressive Gait Ataxia: First Genetically Confirmed Report in the Dominican Republic	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
66	Friday, February 13	13:00 - 14:30	Adult Onset Spinocerebellar Ataxia Type 7: Report of the First Case in Chile	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
68	Friday, February 13	13:00 - 14:30	Hot Cross Bun Sign Misdiagnosed as Multiple System Atrophy	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
69	Friday, February 13	13:00 - 14:30	Ataxia- telangiectasia novel mutation in a Colombian Family	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
70	Friday, February 13	13:00 - 14:30	Characterization of Peripheral Neuropathies in Spinocerebellar Ataxias: A Peruvian Cohort Study	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
71	Friday, February 13	13:00 - 14:30	Cerebellar Ataxia due to chronic toluene intoxication: a case report	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
72	Friday, February 13	13:00 - 14:30	Ataxia, dyskinesias and polyneuropathy as manifestation of phenytoin toxicity: a case report.	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
73	Friday, February 13	13:00 - 14:30	Low Frequency of SCA27B Among Undiagnosed Ataxia Patients in Peru	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
74	Friday, February 13	13:00 - 14:30	Bilateral GPI Deep Brain Stimulation in a Patient with Post-Hypoxic Chorea	Hyperkinetic Movement Disorders (Non-Dystonia)	Choreas (Non-Huntington's Disease)
75	Friday, February 13	13:00 - 14:30	Cocaine-Induced Dyskinesia: An Uncommon Phenotype	Hyperkinetic Movement Disorders (Non-Dystonia)	Choreas (Non-Huntington's Disease)
76	Friday, February 13	13:00 - 14:30	Post Stroke Hyperkinetic Syndromes: Clinical patterns and therapeutic outcomes in a Dominican Case Series	Hyperkinetic Movement Disorders (Non-Dystonia)	Choreas (Non-Huntington's Disease)
77	Friday, February 13	13:00 - 14:30	A flow chart for the evaluation of chorea	Hyperkinetic Movement Disorders (Non-Dystonia)	Choreas (Non-Huntington's Disease)
78	Friday, February 13	13:00 - 14:30	Chronic Subdural Hematoma Presenting as Insidious Onset Unilateral Involuntary Movements	Hyperkinetic Movement Disorders (Non-Dystonia)	Choreas (Non-Huntington's Disease)
80	Friday, February 13	13:00 - 14:30	Assessment of Functional Impairment in Individuals with Huntington's Disease Chorea: a Modified Delphi Consensus Study	Hyperkinetic Movement Disorders (Non-Dystonia)	Huntington's Disease
81	Friday, February 13	13:00 - 14:30	Autonomic Dysfunction in Huntington's Disease: Findings from the COMPASS-31 Scale	Hyperkinetic Movement Disorders (Non-Dystonia)	Huntington's Disease
82	Friday, February 13	13:00 - 14:30	Revisiting the Link Between Huntington's Disease and Cancer: Evidence from the Enroll-HD dataset	Hyperkinetic Movement Disorders (Non-Dystonia)	Huntington's Disease
83	Friday, February 13	13:00 - 14:30	Case series on the treatment of neuropsychiatric symptoms with Clozapine in Huntington's disease	Hyperkinetic Movement Disorders (Non-Dystonia)	Huntington's Disease
84	Friday, February 13	13:00 - 14:30	Series of cases of Huntington's disease in the Dominican Republic	Hyperkinetic Movement Disorders (Non-Dystonia)	Huntington's Disease
85	Friday, February 13	13:00 - 14:30	Multidisciplinary Care in Huntington's Disease: A Single Clinic Study of Value and Outcomes	Hyperkinetic Movement Disorders (Non-Dystonia)	Huntington's Disease
87	Friday, February 13	13:00 - 14:30	A Rare Presentation of Spinal Myoclonus Secondary to Cervical Myelopathy: A Case Report	Hyperkinetic Movement Disorders (Non-Dystonia)	Myoclonus/Tics/Stereotypies
88	Friday, February 13	13:00 - 14:30	Clinical Predictors of Tic-Related Impairment in Children and Adults with Tourette syndrome	Hyperkinetic Movement Disorders (Non-Dystonia)	Myoclonus/Tics/Stereotypies
89	Friday, February 13	13:00 - 14:30	Challenges in Idiopathic Palatal Myoclonus: A Multidisciplinary Approach to Symptomatic Care in Hypertrophic Olivary Degeneration	Hyperkinetic Movement Disorders (Non-Dystonia)	Myoclonus/Tics/Stereotypies
90	Friday, February 13	13:00 - 14:30	Stereotyped Movements as a Rare Motor Phenotype of Wilson's Disease: A Case Report	Hyperkinetic Movement Disorders (Non-Dystonia)	Myoclonus/Tics/Stereotypies
91	Friday, February 13	13:00 - 14:30	Pendular Hemi-Saw Nystagmus With Oculopalatal Tremor: Case Report and Systematic Review	Hyperkinetic Movement Disorders (Non-Dystonia)	Tremor
92	Friday, February 13	13:00 - 14:30	Levodopa-Responsive Tremor Beyond Parkinson's Disease: A Novel Manifestation of CLCN2-Related Leukoencephalopathy	Hyperkinetic Movement Disorders (Non-Dystonia)	Tremor

93	Friday, February 13	13:00 - 14:30	Patients With Tardive Dyskinesia (TD) Report Improved Quality of Life Scores and Met TD Remission Criteria With Once-Daily Valbenazine in KINECT-PRO™, Regardless of TD Movement Severity at Baseline	Hyperkinetic Movement Disorders (Non-Dystonia)	Other
94	Friday, February 13	13:00 - 14:30	Belly Dancer Dyskinesia in Pregnancy: A case report and literature review on a rare hyperkinetic disorder.	Hyperkinetic Movement Disorders (Non-Dystonia)	Other
95	Friday, February 13	13:00 - 14:30	GPI DBS for refractory belly dancer's dyskinesia: a case report and literature review.	Hyperkinetic Movement Disorders (Non-Dystonia)	Other
96	Friday, February 13	13:00 - 14:30	Hyperactive Form of Levator Ani Syndrome: A case report	Hyperkinetic Movement Disorders (Non-Dystonia)	Other
99	Friday, February 13	13:00 - 14:30	Exercise-Induced Changes in Circulating Biomarkers in Parkinson's Disease: Systematic Review and Meta-analysis	Parkinson's Disease	Parkinson's Disease: Biomarkers (Non-Neuroimaging)
100	Friday, February 13	13:00 - 14:30	Electrosonic stimulation for the treatment of motor symptoms in parkinson's disease: motion analysis assessments	Parkinson's Disease	Parkinson's Disease: Clinical Trials
101	Friday, February 13	13:00 - 14:30	Dietitian-Led Dietary Intervention for Constipation in Parkinson's Disease: Study Protocol	Parkinson's Disease	Parkinson's Disease: Clinical Trials
102	Friday, February 13	13:00 - 14:30	Complete Elimination of "Off" Time in People With Advanced Parkinson's Disease Treated With Foslevodopa/Foscarbidopa: Post Hoc Analysis of Two Phase 3 Trials	Parkinson's Disease	Parkinson's Disease: Clinical Trials
103	Friday, February 13	13:00 - 14:30	Qigong exercise improves UPDRS and freezing of gait in patients with PD	Parkinson's Disease	Parkinson's Disease: Clinical Trials
104	Friday, February 13	13:00 - 14:30	Neural Correlates of the Improvement of Motor and Non-Motor Symptoms in Parkinson's Disease Following a Combined Digital and Levodopa Therapy	Parkinson's Disease	Parkinson's Disease: Clinical Trials
105	Friday, February 13	13:00 - 14:30	Hybrid Treatment with the DopApp Digital Application Improves MDS-UPDRS Across Parkinson's Disease Stages: A Double-Blind, Placebo-Controlled Trial with Subgroup Analysis	Parkinson's Disease	Parkinson's Disease: Clinical Trials
106	Friday, February 13	13:00 - 14:30	Transcranial Direct Current Stimulation (tDCS) to Improve Cognitive Function and Reduce Cognitive Fatigue and Fatigability in Parkinson's Disease: A Randomized Controlled Trial	Parkinson's Disease	Parkinson's Disease: Clinical Trials
107	Friday, February 13	13:00 - 14:30	Digital Sensorimotor Training Enhances Thalamocortical Connectivity and Motor Function in Parkinson's Disease: Evidence from Healthy and Affected Populations	Parkinson's Disease	Parkinson's Disease: Clinical Trials
108	Friday, February 13	13:00 - 14:30	Switching to IPX203 Improves "Good On" Time and Reduces Motor Fluctuations in Parkinson's Disease: Interim Results from the Real World ELEVATE-PD Phase 4 Study	Parkinson's Disease	Parkinson's Disease: Clinical Trials
109	Friday, February 13	13:00 - 14:30	the effects of low intensity training with blood flow restriction in individuals living with parkinson's disease	Parkinson's Disease	Parkinson's Disease: Clinical Trials
110	Friday, February 13	13:00 - 14:30	The Effects of Perceived Treatment on Non-Motor Symptoms of Parkinson's Disease in a Randomized, Double-Blind, Placebo-Controlled Trial	Parkinson's Disease	Parkinson's Disease: Clinical Trials
111	Friday, February 13	13:00 - 14:30	Case Report: Short and Unconventional RFC1 Repeat Expansion in a Patient with Cerebellar Ataxia, Neuropathy, and Vestibular Areflexia Syndrome (CANVAS)	Hyperkinetic Movement Disorders (Non-Dystonia)	Ataxia
120	Saturday, February 14	13:30 - 15:00	Strategies to Reduce Hospital Encounters in Parkinson's Disease: Insights from Centers of Excellence	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
121	Saturday, February 14	13:30 - 15:00	Diabetes and Parkinson's Disease: A Hazard Ratio Meta-Analysis with Global and Sex-Specific Projections to 2050	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
122	Saturday, February 14	13:30 - 15:00	Bidirectional Association Between Parkinson's Disease and Skin Cancer: A Systematic Review and Meta-Analysis	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
123	Saturday, February 14	13:30 - 15:00	SOME CLINICAL FEATURES IN ADVANCED PARKINSON'S DISEASE IN A PERUVIAN COHORT OF PATIENTS	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
124	Saturday, February 14	13:30 - 15:00	Association Between Pesticide Exposure and Parkinson's Disease in the Chilean Cohort of LARGE-PD, a multicenter study	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
125	Saturday, February 14	13:30 - 15:00	Prevalence of sleep disorders in Parkinson's disease: a prospective observational study in Argentina	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
126	Saturday, February 14	13:30 - 15:00	PLANTAR SENSORY ALTERATIONS IN INDIVIDUALS WITH PARKINSON'S DISEASE: A COMPARATIVE STUDY	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
127	Saturday, February 14	13:30 - 15:00	Subthalamic DBS and Psychiatric Outcomes in Parkinson's Disease: A Retrospective Correlational Study	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
128	Saturday, February 14	13:30 - 15:00	High Burden of Non-Motor Symptoms and Motor Complications in Peruvian Parkinson's Disease Cohort	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales

129	Saturday, February 14	13:30 - 15:00	Expanding Global Representation: Sociodemographic Characteristics of Dominican Patients with Parkinson's Disease – Insights from the GEN-EP Latino Study	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
130	Saturday, February 14	13:30 - 15:00	A Novel Clinic for Individuals At-Risk for Parkinson's Disease	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
131	Saturday, February 14	13:30 - 15:00	Association Between Pain Severity and Quality of Life in Patients with Parkinson's Disease: A Longitudinal Study	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
132	Saturday, February 14	13:30 - 15:00	Towards Precision Prognosis in Parkinson's Disease: Multimodal Predictors of Clinical Milestones from the PPMI Study	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
133	Saturday, February 14	13:30 - 15:00	Prevalence of Central Pain in Parkinson's Disease: A Systematic Review and Meta-analysis	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
134	Saturday, February 14	13:30 - 15:00	Prevalence and Incidence of Mild Parkinsonian Signs and Parkinsonism in Cerebral Small Vessel Disease: A Systematic Review and Meta-Analysis	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
135	Saturday, February 14	13:30 - 15:00	Forecasting the burden of Parkinson's disease in Mexico (2014–2025): A nationwide incidence analysis using the Prophet model	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
136	Saturday, February 14	13:30 - 15:00	Phase angle as a biomarker of cellular health in Parkinson disease: a case study	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
137	Saturday, February 14	13:30 - 15:00	Negative Correlation of Depressive Symptomatology and Performance on Attention Tasks in Patients with Idiopathic Parkinson's Disease Without Dementia. Descriptive Study ESDEPARK Scale.	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
138	Saturday, February 14	13:30 - 15:00	Portable Eye-Tracking for Monitoring Patients with Parkinson's Disease: Preliminary Results	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
139	Saturday, February 14	13:30 - 15:00	The Burden of Early-Onset Parkinson's Disease in Brazil: Insights from Hospitalization Data (2015–2024)	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
140	Saturday, February 14	13:30 - 15:00	Negative Correlation of Depressive Symptomatology and Performance on Visuospatial Functioning Tasks in Patients with Idiopathic Parkinson's Disease without Dementia. Descriptive Study of the ESDEPARK Scale.	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
141	Saturday, February 14	13:30 - 15:00	Negative Correlation between Apathy and Depression on Performance in Basic, Instrumental and Advanced Activities of Daily Living in Patients with Idiopathic Parkinson's Disease without Dementia. Descriptive Study ESDEPARK Scale.	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
142	Saturday, February 14	13:30 - 15:00	Clinical and environmental features of Parkinson's disease in El Salvador: findings from LARGE-PD case-control study	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
143	Saturday, February 14	13:30 - 15:00	Unraveling the Neuropsychiatric Effects of Levodopa: Long-Term Changes in Motor Fluctuations Assessed by the QUICK Questionnaire in Parkinson's Disease with Comorbid Depression	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
144	Saturday, February 14	13:30 - 15:00	Discontinuation of Parkinsons Diseases Clinical Studies: A Cross-Sectional Analysis	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
145	Saturday, February 14	13:30 - 15:00	Parkinson Disease in a patient with Prader Willi Syndrome	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
146	Saturday, February 14	13:30 - 15:00	Body composition and motor impairment in a case of Parkinson's disease and HIV	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
147	Saturday, February 14	13:30 - 15:00	Association of Parkinson Disease Hallucination with severity of Motor symptoms in Parkinson Disease Patients	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
148	Saturday, February 14	13:30 - 15:00	Neuropsychiatric and Imaging Correlates to Impulse Control in Parkinson Disease (PD) Patients	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia

149	Saturday, February 14	13:30 - 15:00	Blood pressure fluctuation as a potential mechanism of caregiver-reported cognitive fluctuations in Lewy body disorders	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
150	Saturday, February 14	13:30 - 15:00	Clinical impact of $\alpha$ -synuclein oligomers in dementia with Lewy bodies.	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
151	Saturday, February 14	13:30 - 15:00	Retuning the Internal Clock in Parkinson's Disease Through a Personalized Music-Based Tapping Task	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
152	Saturday, February 14	13:30 - 15:00	Visual Representations of Hallucinations in Parkinson's Disease: A Descriptive Study Based on Patient-Drawn Illustrations	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
153	Saturday, February 14	13:30 - 15:00	The influence of long-term amantadine therapy on MoCA Scores in people living with Parkinson's Disease	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
154	Saturday, February 14	13:30 - 15:00	Network Proteomics Identifies Regional Pathophysiological Signatures in the Lewy Body Dementia Brain	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
155	Saturday, February 14	13:30 - 15:00	Clinical and Inflammatory Correlates of Psychosis in Parkinson's Disease: A Preliminary Cross-Sectional Study	Parkinson's Disease	Parkinson's Disease: Cognition / Psychiatric Manifestations / Lewy Body Dementia
156	Saturday, February 14	13:30 - 15:00	Screening of PGC-1 $\alpha$ mutations among the Late Onset and Early Onset Parkinson's Disease patients from Punjab population, India	Parkinson's Disease	Parkinson's Disease: Disease Mechanisms
157	Saturday, February 14	13:30 - 15:00	ASSESSING THE ROLE OF AFG3L2 PATHOGENIC VARIANTS IN PARKINSON'S DISEASE	Parkinson's Disease	Parkinson's Disease: Genetics
158	Saturday, February 14	13:30 - 15:00	Genetic Counseling Training to Support Return of Results in PDGENE-LARGE-PD	Parkinson's Disease	Parkinson's Disease: Genetics
159	Saturday, February 14	13:30 - 15:00	Exploratory genome-wide association study of Levodopa-Induced Dyskinesias in Latinos	Parkinson's Disease	Parkinson's Disease: Genetics
160	Saturday, February 14	13:30 - 15:00	Elucidating dual carrier dynamics in GBA-LRRK2 using clinico-pathological correlates	Parkinson's Disease	Parkinson's Disease: Genetics
161	Saturday, February 14	13:30 - 15:00	Genetic characterization of Parkinson's Disease in a Chilean cohort	Parkinson's Disease	Parkinson's Disease: Genetics
162	Saturday, February 14	13:30 - 15:00	Differences in the frequency of non-motor symptoms between genetically-confirmed and idiopathic Parkinson's disease in a sample from the southwestern of Colombia.	Parkinson's Disease	Parkinson's Disease: Genetics
163	Saturday, February 14	13:30 - 15:00	Three Unrelated Cases of Parkinson's Disease Associated with the SQSTM1 p.Pro392Leu Variant in Chile and Brazil: Expanding the Phenotypic Spectrum of SQSTM1-Related Disorders	Parkinson's Disease	Parkinson's Disease: Genetics
164	Saturday, February 14	13:30 - 15:00	Genetic Profile of Early-Onset Parkinson's Disease in Latin America: A Systematic Review	Parkinson's Disease	Parkinson's Disease: Genetics
165	Saturday, February 14	13:30 - 15:00	Cerebellar Compensation and Functional Connectivity Shifts in Parkinson's Disease	Parkinson's Disease	Parkinson's Disease: Neuroimaging
166	Saturday, February 14	13:30 - 15:00	Connectivity-Based Parcellation of the Subthalamic Nucleus Using Probabilistic Tractography	Parkinson's Disease	Parkinson's Disease: Neuroimaging
167	Saturday, February 14	13:30 - 15:00	Applying Machine Learning with Neuroimaging Biomarkers to Detect Parkinson's Disease and Cognitive Impairment	Parkinson's Disease	Parkinson's Disease: Neuroimaging
168	Saturday, February 14	13:30 - 15:00	Impact of APOE4 on Cortical Morphology and Cognition in Parkinson's Disease: A PPMI Study	Parkinson's Disease	Parkinson's Disease: Neuroimaging
169	Saturday, February 14	13:30 - 15:00	Connectivity Differences within the Cerebello-Thalamo-Cortical Circuit in Parkinson's Disease Patients with Different Tremor Phenotypes	Parkinson's Disease	Parkinson's Disease: Neuroimaging
170	Saturday, February 14	13:30 - 15:00	Temporal patterns of neural firing in human subthalamic nucleus during speech production compared to non-speech orofacial movement	Parkinson's Disease	Parkinson's Disease: Neuroimaging
172	Saturday, February 14	13:30 - 15:00	Neural correlates of turning in individuals with Parkinson's disease with and without freezing of gait: Preliminary results	Parkinson's Disease	Parkinson's Disease: Neuroimaging
173	Saturday, February 14	13:30 - 15:00	Evaluation of Nociception in a Model of Parkinson's Disease for the Study of Non-Motor Symptoms in Trpv4-/- Animals	Parkinson's Disease	Parkinson's Disease: Non-Motor Symptoms (Non-Cognitive / Non-Psychiatric)
174	Saturday, February 14	13:30 - 15:00	OUTPATIENT MANAGEMENT OF NON-MOTOR SYMPTOMS IN PARKINSON'S DISEASE	Parkinson's Disease	Parkinson's Disease: Non-Motor Symptoms (Non-Cognitive / Non-Psychiatric)
175	Saturday, February 14	13:30 - 15:00	Cardiovascular and Neurodegenerative Copathology: Hypertension and Parkinson's Disease in a Clinical Cohort from the GEN-EP Latino Study	Parkinson's Disease	Parkinson's Disease: Non-Motor Symptoms (Non-Cognitive / Non-Psychiatric)
176	Saturday, February 14	13:30 - 15:00	Longitudinal assessment of pain severity and minimal clinically important difference in people with Parkinson's disease.	Parkinson's Disease	Parkinson's Disease: Non-Motor Symptoms (Non-Cognitive / Non-Psychiatric)
177	Saturday, February 14	13:30 - 15:00	REM Sleep Behavior Disorder as a Prodromal Marker for Parkinson's Disease: Analysis of the PROBE-PD Cohort from Southern Brazil	Parkinson's Disease	Parkinson's Disease: Non-Motor Symptoms (Non-Cognitive / Non-Psychiatric)
178	Saturday, February 14	13:30 - 15:00	Deep Brain Stimulation and Its Effects on Autonomic Dysfunction in Parkinson's: What Do We Really Know?	Parkinson's Disease	Parkinson's Disease: Non-Motor Symptoms (Non-Cognitive / Non-Psychiatric)
179	Saturday, February 14	13:30 - 15:00	AEBP1-PPAR $\alpha$ Signaling Pathway Regulates Lipid Metabolism in Parkinson's Disease	Parkinson's Disease	Parkinson's Disease: Pathophysiology / Molecular Mechanisms of Disease
181	Saturday, February 14	13:30 - 15:00	Chronic Manganese Neurotoxicity: Physiological, Histopathological and Biochemical Evidence of Dose-Dependent Parkinsonian Brain Damage	Parkinson's Disease	Parkinson's Disease: Pathophysiology / Molecular Mechanisms of Disease
182	Saturday, February 14	13:30 - 15:00	Treadmill Training Improves Motor and Balance Outcomes in Parkinson's Disease: A Systematic Review of Randomized Controlled Trials	Parkinson's Disease	Parkinson's Disease: Pharmacology and Medical Management
183	Saturday, February 14	13:30 - 15:00	Effects of Yoga on Motor and Non-Motor Symptoms in Parkinson's Disease: A Systematic Review and Meta-Analysis	Parkinson's Disease	Parkinson's Disease: Pharmacology and Medical Management
184	Saturday, February 14	13:30 - 15:00	GLP-1 Receptor Agonists for Motor and Non-Motor Outcomes in Parkinson's Disease: A Systematic Review and Meta-Analysis	Parkinson's Disease	Parkinson's Disease: Pharmacology and Medical Management

185	Saturday, February 14	13:30 - 15:00	Do Robotics Really Help in Parkinson's Rehabilitation? Meta-Analysis Reveals Modest Gains	Parkinson's Disease	Parkinson's Disease: Pharmacology and Medical Management
186	Saturday, February 14	13:30 - 15:00	Hyperbaric Oxygen therapy (HBO) for Parkinson's Disease (PD)	Parkinson's Disease	Parkinson's Disease: Pharmacology and Medical Management
187	Saturday, February 14	13:30 - 15:00	Associations between daily levodopa equivalent dose and MDS-UPDRS-III scores in persons with Parkinson's disease: a mixed-model analysis.	Parkinson's Disease	Parkinson's Disease: Pharmacology and Medical Management
190	Saturday, February 14	13:30 - 15:00	Reducing Inpatient Medication Errors in Parkinson's Disease: A Multidisciplinary Approach	Parkinson's Disease	Parkinson's Disease: Pharmacology and Medical Management
191	Saturday, February 14	13:30 - 15:00	Effects of Deep Brain Stimulation on Motor Function, Cognition, and Medication Burden in Parkinson's Disease: A Prospective Study	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
192	Saturday, February 14	13:30 - 15:00	A Dedicated Brain Bank for Deep Brain Stimulation Patients at the University of Florida: Rationale, Framework, and Methods	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
193	Saturday, February 14	13:30 - 15:00	Paused or Passed Over: Multidisciplinary Deep Brain Stimulation Screen Failures	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
194	Saturday, February 14	13:30 - 15:00	Deep brain stimulation in Bogotá, Colombia: Indications, demographics and targets.	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
195	Saturday, February 14	13:30 - 15:00	The Quality of Microelectrode Recording in Staged Bilateral Deep Brain Stimulation Surgery	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
196	Saturday, February 14	13:30 - 15:00	Cognitive Trajectories Following Subthalamic Deep Brain Stimulation in Parkinson's Disease: Retrospective MoCA Evaluation	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
197	Saturday, February 14	13:30 - 15:00	Side Effects Encountered with Stimulation of Posterior Subthalamic Area: A Capsule Mimic	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
199	Saturday, February 14	13:30 - 15:00	Long-Term Metabolic Network Modulation After STN-DBS in Parkinson's Disease: A Longitudinal <sup>18</sup> F-FDG PET Study	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
200	Saturday, February 14	13:30 - 15:00	User-centered design in cutlery for people with Parkinson's disease: an analysis of usability	Parkinson's Disease	Parkinson's Disease: Other
201	Saturday, February 14	13:30 - 15:00	Effects of Intravenous Allogeneic Mesenchymal Stem Cell Infusions on Neurodegeneration in Parkinson's Disease	Parkinson's Disease	Parkinson's Disease: Other
202	Saturday, February 14	13:30 - 15:00	Plantar Stimulation, Parkinson's disease, and Gait Speed: What Is the Evidence? A Systematic Review and Meta-Analysis	Parkinson's Disease	Parkinson's Disease: Other
204	Saturday, February 14	13:30 - 15:00	Caffeine Intake and Parkinson's Disease: Insights into Risk Reduction and Disease Progression	Parkinson's Disease	Parkinson's Disease: Other
205	Saturday, February 14	13:30 - 15:00	Advancing Parkinson's Disease Treatment by Integrating Physical Movement with Speech Intelligibility Using CAREN Technology	Parkinson's Disease	Parkinson's Disease: Other
206	Saturday, February 14	13:30 - 15:00	Prescribing and perceptions of wearable infusion therapies for Parkinson disease: Association of Movement Disorder Advanced Practice Provider (AMDAPP) survey	Parkinson's Disease	Parkinson's Disease: Other
207	Saturday, February 14	13:30 - 15:00	Autologous iPSC-Derived Midbrain Dopaminergic Progenitors (BXT-110) Demonstrate Reproducible Efficacy and Safety in Preclinical Models of Parkinson's Disease	Parkinson's Disease	Parkinson's Disease: Other
208	Saturday, February 14	13:30 - 15:00	Toward a Unified AI-Biomarker-Wearable Framework for Parkinson's Disease: Bridging Early Diagnosis, Continuous Monitoring, and Intelligent Neuromodulation	Parkinson's Disease	Parkinson's Disease: Other
209	Saturday, February 14	13:30 - 15:00	NeuroLens: Using Large Language Models and Machine Learning for Early Parkinson's Detection	Parkinson's Disease	Parkinson's Disease: Other
210	Saturday, February 14	13:30 - 15:00	Building Community and Comprehensive Rehabilitation for Parkinson's Disease: An Interdisciplinary Model from Bogotá, Colombia	Parkinson's Disease	Parkinson's Disease: Other
211	Saturday, February 14	13:30 - 15:00	Clinical Biodanza (CB) as the Backbone of a Hybrid Support Community for Parkinson's Disease: A Bogotá Experience	Parkinson's Disease	Parkinson's Disease: Other
212	Saturday, February 14	13:30 - 15:00	Non-Choreic Movement Disorders in Antiphospholipid Syndrome: A Case Report and Systematic Review	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Paroxysmal Movement Disorders
213	Saturday, February 14	13:30 - 15:00	Clinical, Epidemiological, and Therapeutic Description of Pediatric Movement Disorders between January 2022 and June 2025 at a Referral Center in Bogotá, Colombia	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Pediatric Movement Disorders
214	Saturday, February 14	13:30 - 15:00	Does tic severity in children fluctuate by calendar month? A cohort study.	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Pediatric Movement Disorders
215	Saturday, February 14	13:30 - 15:00	Autism Spectrum Disorder Behavior Due To Wiedemann-Steiner Syndrome (WSS): A Case Report	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Pediatric Movement Disorders
216	Saturday, February 14	13:30 - 15:00	Adult-Onset Neurodegeneration correlated to variants of ERCC4 gene.	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders

217	Saturday, February 14	13:30 - 15:00	A Systematic Review on the Use of N-Acetyl-L-Leucine in Ataxias	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
218	Saturday, February 14	13:30 - 15:00	Levodopa-Responsive Early-Onset Parkinsonism in a Patient with PPP2R5D-Related Neurodevelopmental Disorder	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
219	Saturday, February 14	13:30 - 15:00	Expanding the Phenotypic Spectrum of NPHP1 Variants: Case Report of a Dystonia–Ataxia Syndrome	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
220	Saturday, February 14	13:30 - 15:00	Characterizing Patient Journeys in Very Late-Onset Friedreich Ataxia Diagnosed at Age ≥40 Years: a Real-World US Claims Perspective	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
221	Saturday, February 14	13:30 - 15:00	Patient Characteristics and Onset of Loss of Ambulation in Patients With Friedreich Ataxia: Analysis of US Medicare Claims Data	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
222	Saturday, February 14	13:30 - 15:00	Real-World Characterization of Early Omaveloxolone Use in Patients With Friedreich Ataxia	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
223	Saturday, February 14	13:30 - 15:00	Adult-Onset MICU-1 Gene Associated Mitochondrial Disorder with Cerebellar Features	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
224	Saturday, February 14	13:30 - 15:00	A novel case of 9p13 Deletion Syndrome characterized by seizures and hyperkinetic movements	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
225	Saturday, February 14	13:30 - 15:00	FXTAS and the FMR1 premutation phenotypic spectrum in Latin America: A scoping review	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
226	Saturday, February 14	13:30 - 15:00	From Cerebral Palsy to Adult-Onset Dyskinesia: Expanding the Clinical Spectrum of AARS2-Related Leukodystrophy	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
227	Saturday, February 14	13:30 - 15:00	Expanded Access Program of Levacetylleucine in Ataxia-Telangiectasia	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
228	Saturday, February 14	13:30 - 15:00	The Absence of the Obvious: Phenotypic Variability in Two Sisters With Cerebrotendinous Xanthomatosis Without Tendon Xanthomas	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
229	Saturday, February 14	13:30 - 15:00	When the basal ganglia turns to stone: A case of Fahr’s disease.	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
230	Saturday, February 14	13:30 - 15:00	NEURONAL CEROID LIPOFUSCINOSIS TYPE CLN11 DUE TO GRN GENE MUTATION: CASE REPORT OF TWO SISTERS.	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders

231	Saturday, February 14	13:30 - 15:00	CADASIL: Spastic Paraparesis and Dystonia as Clues to the Diagnosis of a Genetic Arteriopathy	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
232	Saturday, February 14	13:30 - 15:00	Colpocephaly and Refractory Epilepsy as Possible Sequelae of Intrauterine SARS-CoV-2 Exposure: A Case Report	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
233	Saturday, February 14	13:30 - 15:00	Adult-Onset Cerebellar Ataxia Associated with a Pathogenetic NUBPL Variant	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
234	Saturday, February 14	13:30 - 15:00	Progressive Cerebellar Ataxia in an Adult with a Pathogenic Mitochondrial MT-TK Variant in the Absence of Seizure Activity	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
235	Saturday, February 14	13:30 - 15:00	Preliminary report of home-based tDCS for non-motor symptoms of Huntington's disease: an open-label study	Pediatric, Rare Inherited and Neurometabolic Disorders, and Paroxysmal Movement Disorders	Rare Inherited and Neurometabolic Movement Disorders
236	Saturday, February 14	13:30 - 15:00	Is Metabolic Syndrome Associated with Worse Clinical Progression in Parkinson's Disease?	Parkinson's Disease	Parkinson's Disease: Epidemiology, Phenomenology, Clinical Assessment, Rating Scales
237	Saturday, February 14	13:30 - 15:00	Profile of Parkinson's Disease Patients Treated with Deep Brain Stimulation in a Tertiary Public Hospital in Brazil	Parkinson's Disease	Parkinson's Disease: Surgical Therapy
